

Bristol School Attendance Charter (DRAFT- July 2018)

- In Bristol, school attendance is everyone's business.
- We must work together to support and, where necessary, improve school attendance for every child in our city.
- We will act as attendance role models for the children and young people in our care.
- We will champion outstanding and improved attendance by addressing barriers to attendance we come across in our own organisations.
- We will support parents and carers to prioritise school attendance throughout their child's time at school – from starting at Nursery until they have completed their education.
- We will work together to support children when they move from one school to another and on to the world of work, re-enforcing the importance of good attendance at each step along the way.
