As we build the proposals for the development, we would also like to take the opportunity to enhance the centrem of Westbury Village for residents and reduce traffic.

**What Changes Are We Proposing?**

The plans shown here outline how we propose to achieve these improvements:

- **Bus-based journeys into Bristol quicker and more reliable**
- Ensure buses are the best way to get into and out of the town centre
- **Improve the ‘2’ bus service**
- **Encourage cycling and walking in the town centre and make it safer and more convenient**

We aim to:

- Improve the attractiveness and vitality of Westbury Village, especially as a shopping destination, by removing the car traffic through the village and improving the setting and accessibility of the civic square.
- Make bus journeys into Bristol quicker and more reliable
- Ensure buses are the best way to get into and out of the town centre
- Improve the ‘2’ bus service
- Encourage cycling and walking in the town centre and make it safer and more convenient

Our traffic modelling has shown that the road could need improvements to enhance walking and cycling for residents and visitors. We believe that the best way to do this is a major investment in public transport.
